DSA BULLETIN #05-02

Date: 8/01/05

To: Division of the State Architect Regional Offices
Architects

From: Division of the State Architect
Department of General Services
State of California

SUBJECT: Effective dates for the 2004 California Electrical Code and 2005
California Energy Code

Purpose: Plans and specifications for school construction projects submitted to DSA after August 1, 2005 must conform to the 2004 California Electric Code (CEC) and projects submitted after October 1, 2005 must conform to the 2005 Energy Code. This Bulletin serves as a reminder to design professionals about effective dates for these updated codes and to ensure code complying project submittals. The plans and/or specifications will need to note the correct edition of these codes.

Note: Please see DSA Bulletin #05-01 regarding the impact on Pre-Check applications of the updates to the California Electric Code and the Energy Code.
